Jillian thought things couldn't get worse than John working on his last film with Monica Morgan, but his new co-star puts that notion to the test. Marty has had her future planned out since childhood, but Michael has other ideas. Tommy and Maria are learning to adjust to her booming business and a changing household, when his work associate creates complications. Greta is ready to graduate and begin her dream job, but a surprising situation rattles her and Drew's lives. Robert and Karen are ready to adopt, but will an unexpected incident get in the way? Nancy and Buck have settled into a comfortable life together, until a visit to the Esperanza Workshop brings someone new into their world. And Monica Morgan thinks her family is coming back together, only to be shocked when her son makes the biggest mistake of his life. Life is full of twists and turns, disappointments and joys, the expected and the completely unexpected.

Join these characters, and others, as they navigate these challenges in Scratch Pad, the fourth book in the Noted! series.
