"pleasure and pain mixing into one glorious whole... she was crying out again and again" Annie is eighteen, and an orphan. Living out her days in the dismal surrounds of Bleakcroft Orphanage, she dreams that her Prince Charming will come to her rescue. But as her dreams turn into bed-time fantasies, she is caught in the midst of sinning. Dragged from her bed, she is taken before the forbidding Dr Thorn for punishment. What form will his discipline take? And what will Annie do when she discovers that sometimes, there is a thin line between pleasure and pain? An erotic short.
