It was meant to be fixed... her destiny back on track, how wrong could she be... Just when Scarlett thought everything was back to normal, well as normal as life can be with a posse of Seraphoenix Angel Guardians looking out for you. She wakes to find her life plunged into a whole new nightmare, where time itself has changed and she appears to be the only one aware of it. In this new reality everything has altered, Leo and the Seraphoenix are missing. Even her parents are different, as they turn against her when she is unexpectedly framed for things she didn't do. To make matters worse she is unceremoniously shipped off to a supposed reform school for out of control teens in the wilds of 'god-knows-where' escorted by someone she recognises and really wished she didn't. Nothing is what it seems at the new school and the pupils are than hospitable.

Scarlett finds herself in one deadly situation after another at the mercy of all those around her, and there is no-one she can trust with her secret. Can Scarlett escape the menacing clutches of evil in this new reality? Will Leo come to her rescue? ***** So you thought you knew all about Angels ~ here's some you've never met before The Seraphoenix A whole new breed, who are as sexy as hell and decidedly dangerous!
