While hiking along a backyard route they call the secret passage, twelve-year-old Archie Reynolds and his two friends stumble upon a mysterious, hidden tunnel. What's in the tunnel? Who built it? And why is it there? Archie and his two friends are destined to find out the shocking, chilling answers to these questions, and more.

But before they do, they must first tangle with a neighborhood bully and his pal, as well as three flowering girls from the neighborhood, one of whom has a secret interest in Archie. For ages 9 and up.
