Wolf Tongue of the Susquehannock and Lieutenant Hugh Pyke of the British Army barely survived their first mission together. Now with the French and Indian War beginning to flame around them, the frontier of the Pennsylvania Colony is rest. When they're called back to protect Millers Town from Indian raiders, Pyke and Wolf Tongue discover the settlement is outnumbered and there is no militia to reinforce them. Even worse, Pyke and Wolf Tongue fear the townsfolk harbor secrets just as deadly as their attackers. As Pyke tries to build a haphazard defense with a band of farmers and children against an almost inevitable slaughter, the mysteries of the town begin to unravel. Pyke realizes his life is in danger from the very people he is duty-bound to protect—perhaps, even from the beautiful French outcast who seems to know more than she should. With a final, crushing attack imminent, Wolf Tongue hurries to rescue a kidnapped girl who might be the only hope for the town's survival while Pyke struggles to protect the innocent. As they carve away layers of deceit, both men must confront the terrible truths behind Millers Town to survive the dangers to their lives, their peoples, and their honor. Through the Narrows continues the historical adventure of the Tomahawk and Saber series, filled with suspense and action that captures the deadly brutality, danger, and history of Colonial America.
