On Inauguration Day, newly elected President Stephen Blades hoped to tackle the most critical issues facing the nation: war, the economy, and a failing health care system. But in a letter penned by the outgoing President, Blades learns the truth that redefines "critical": seven years ago, NASA discovered alien presence in the asteroid belt, and kept it a secret from the world. A stealth mission crewed by nine astronauts was sent to make contact, and they're getting close - assuming they survive the long journey to reach their destination.

Today, President-elect Blades has become the most powerful man on the planet. This planet.
