A Christmas Miracle Left penni after her parents' death, Meg Gillingham was in dire straits. Her cruel landlord threatened to turn her and her siblings out of their home by the New Year—un she surrendered her sister to his lecherous whims. Only a miracle could save her: a magic statue that granted wishes—for a price. Meg never expected the statue to bring her a marriage proposal, especially from the handsome Earl of Saxonhurst, who needed a bride to keep his fortune. Her heart raced wildly, for she was held spellbound by her desire for this man. But a villain was determined to destroy their union with mistrust, and see them dead. Now Meg had to put her faith in a more powerful magic—the magic of love.
