The definitive guide to U.S. government information on the Web has been expanded and updated with the latest information from the current administration, including material on the Department of Homeland Security, the Patriot Act, and the E-Government Act of 2002. Peter Heron, one of the country's foremost authorities on government information, and his colleagues provide additional Web sites and offer valuable strategies for effectively accessing and using government information online. More than a mere directory of Web sites, this authoritative work serves as a cardinal pointer through the government's labyrinthine structure and the myriad information resources available to the public, giving users a clearer understanding of U.S. government agencies and their online publications and services. An essential and regularly updated reference, this guide is a reliable roadmap to a vast and diverse field of important information.
