Diary of a Nagual Woman is the compelling story of one woman's journey on the path with heart. A personal and chilling confrontation with the very nature of life and death, which brings the reader face to face with the shaman's double: the immortal & mysterious Other who takes on a life of his own, & manifests the key to unlocking our own evolution of consciousness. The double is the higher self, the energy body, the dreaming body, but contrary to what we have been led to believe, the higher self is not necessarily confined to energy alone, as the author discovered on an otherwise insignificant morning in the spring of 1988.

In this book, you will meet Orlando at the same time the author first encounters him - and it is a meeting that is both humorous and life-altering, for it brings what is traditionally considered impossible into the realm of possibility, and launches both author and reader into a journey that has no beginning and no end - and is as personal to every seeker as his or her own fingerprints. For anyone familiar with the works of Carlos Castaneda, or Don Miguel Ruiz, Diary of a Nagual Woman continues the journey and expands it into areas seldom explored in other works, bringing a quantum comprehension to what has traditionally been considered a mystical path alone.
