What do you get when Star Wars meets Sherwood Forest? Mix in a little Pirates of the Caribbean, Fanny Hill and Hitchhikers Guide to the Galaxy and you get Brandi Whyne? And Her Incredibly Erotic Adventures with Robin Manhood and His Totally Sexed-Out Space Pirates. With a series title that long and weird, you just know it's just gotta be good! In Chapter Two: Lashed at the Mast! strong-willed, hot-blooded Brandi Whyne finds herself tied up for a bout of "discipline" with ship's disciplinarian Zelda. After her experience, Captain Robin Manhood--along with several other crew members--are pleasantly surprised at how well Brandi adapts to life aboard the Purple Pulsating Parsnip. Robin sends Brandi on an undercover mission to ascertain why the dangerously sexy space smuggler Daro is delivering inferior adult toys. But first Brandi has to make Zelda's leather-wearing ex-lover Zelina jealous. But will silver pasties and crotch panties really do the trick?
