An ancient terror haunts the Sonoran Desert. For hundreds of years, people have reported encounters with monstrously large coyotes that appear from the wilds to carry away human prizes. Luisa, a preternaturally beautiful and curvaceous girl from a tiny border town in Mexico, had never heard these stories. But when a drug cartel sends her and her father fleeing into the desert, she winds up with a few of her own to tell.

In this erotic thriller, a strong young woman must struggle to find her way in a world that wants her for her body, a body that harbors its own dark and powerful lusts. When a mysterious protector comes to her aid in a moment of crisis, she is plunged into a world of magic and desire. And when he introduces her to his pack, a terrible day turns into the steamiest night of her life.
