Standards have little value unless they are implemented by teachers in their everyday practice. That's why you need this book on how to link all aspects of your local curriculum to state and national standards. Explore the 11 components involved in the standards-linking process, and know the key issues to address at every stage, including Who is responsible for meeting standards? How are established assessments and instructional guidelines linked to standards? How are results tracked and reported? When and where are professional development and teacher supervision aligned? Sample standards, planning guides and tools, and a detailed action plan ensure you get started and stay on track.
