To escape her murderous reputation, Olive Jessop takes refuge on the notorious pirate ship, the Sargasso's Mistress. Reveling in her newly found freedom, she concocts a scandalous plan to bury the specter of her late husband for good-propose to the captain they become lovers. She never expected such a rogue to refuse. But when he convinces his hardened crew not to torture a captive, she finds she wants to uncover more of the man than what's tucked away beneath his breeches. The widow's presence on Captain Christopher Taylor's ship clashes with his commitment to help fortify the North Carolina coast against the actions of a corrupt colonial governor.

Her quiet beauty recalls emotions he thought he'd long tossed overboard-like so much expendable ballast-when he vowed to redeem himself from his father's past betrayals. Yet, when they reach a pirate enclave in the Caribbean, he struggles to suppress his desire to make love to her on the seductive island beaches. Set amidst the explosive events leading to the infamous Blackbeard's death, Olive and Christopher must choose between personal agendas and their growing passion for each other. Will the choice come in time to save them from the hangman's noose?
