Los Angeles cop John "Tidal Wave" McGrave is an unstoppable force of nature who always gets his man...even if it means laying waste to everything around him, including his own career...which is exactly what happens in his pursuit of Sebastian Richter, the ruth leader of an international gang of violent thieves. When Richter flees to Berlin, McGrave chases after him...even though the cop doesn't know the language, the laws, or the culture. But McGrave doesn't care...

he speaks the universal language of knee in the groin and fist in the face...and he won't let anything get in his way. Hold on tight for a wild, rollicking, action-adventure novella that captures all of the fun, excitement and pure escapist pleasure of the "Dirty Harry," "Lethal Weapon" and "Die Hard" movies...with the humor, sharp dialogue and inventiveness that you've come to expect from Lee Goldberg, bestselling author of "The Walk," "Watch Me Die," "The Dead Man," and fifteen hilarious Adrian Monk mysteries. "McGrave" is guaranteed to leave you breath...and with a big smile on your face.
