The assassination of heroes was once a warning—for an invasion that nearly destroyed the world. On the brink of total victory, the black horde mysteriously vanished, leaving terrified survivors . . .

and rumors. As the centuries passed, the holocaust faded into legend, and finally myth. But death is stalking heroes once more, and the ultimate army has already been unleashed. The only hope lies in destroying the source—before all life is extinguished. Fate has chosen Elseerian for the impossible feat, but as he embarks on the harrowing journey the invasion must be delayed. With time as their only weapon against extinction, the elves issue a desperate call . .

. for every race to ally. Facing annihilation, many will realize that survival lies in unity, courage sleeps in ordinary citizens, and average people can turn the tide of war. But even if the world can gather in the name of survival, the best they can last is Seven Days . . . The Second Draeken War is a combined edition of Elseerian, The Gathering, and Seven Days, and marks the first trilogy in The Chronicles of Lumineia.
