What is the meaning of fear? Is it to be scared that your lover will kill you if you don't obey? Is it being tossed over your porch and crashing into the ocean? Is it being arrested for their murder or fearing they will come back to get you? When Toni met Cade, Cade was a talented up and coming jazz piano player. Toni quickly takes Cade into her home and isolates her. She chokes off her friends, her social life and takes control of her every move. When Toni finally and brutally tries to take Cade's life Cade is lucky to survive. She floats on her back in the ocean overnight and is rescued by Officer Kendle Mayfield. Kendle finds this angel floating in the ocean and quickly fishes her out of the water just to find a vacant shell of a woman staring back at her. Can island life help Cade heal? Will she finally be safe? Will Kendle find what she is looking for in Cade's eyes? Only time can tell.
