Is blood thicker than love? After ending the reign of a drug dealer in Seattle, Sami is certain she and Connor have stopped the vampire ring responsible for killing humans.

He, however, isn't so sure. When Connor returns to Seattle to tie up the loose ends of their case, he finds himself a prisoner of the vampire, Selene Ambrogio. As he faces death, he can only think of his one regret: he never told Sami that he loved her. Uncertainty becomes Sami's companion when Connor doesn't return to Operation Underworld headquarters days after his scheduled arrival. Through the help of Dedou, the voodoo Priestess, and Harper, the white-hat hacker, they trace him to the mountains in Washington State. Sami immediately travels across the country, determined to rescue him.

Her search will bring her face-to-face with the true mastermind behind the disappearances and deaths of humans, and a surprising twist of events leaves her devastated by her connection to Selene. Now, Sami and Connor must once again fight for their lives in order to find the future together they both desperately want.
