Moving from Florida to Rhode Island, Wren Adams was determined to start a new life without the shadows from her past. Zack Gallo, a notorious Boston playboy whose lifestyle no longer suited him, decided Rhode Island was the place to start fresh. It was close enough to his tight knit family, but far enough to have the space he needed to make the changes in himself without the influence of his past. When the two end up forced into living together, life changes in many ways for them. Neither Wren nor Zack were looking for romance. Wren never allowed herself to get close enough to a man to fall in love. Love always led to pain. Zack had always wanted to be free to do as he pleased, with whom he pleased, when he pleased. No strings.

But life doesn't always work out the way we plan... Dr. Claire MacKenna is an independent, successful woman. Who would have ever thought she'd be on the run? When her longtime boyfriend becomes possessive and abusive, Claire finds herself in need of a safe haven. She finds that in Rhode Island with her lifelong best friend, Wren. But will it be far enough away to keep her safe? Fenced Hearts is a suspenseful, erotic romance, peppered with humor and local flavor. It is the first book in a series written by Zoie Jenkins.
