Mythology, whether classic or modern, has always taken readers on a magical ride. Mythologically Torqued, volume 2, takes those tales from days of old, or more recent history, and places a unique spin on the beloved lore. The gods of Olympus make appearances, as do deities from Japanese, Native American, and other belief systems. With rampant sexual desires, these gods manage to slake their thirst for passions of the flesh in a rather untraditional manner... if the oral traditions passed down from generation-to-generation were at all accurate. These eighteen stories are penned by both seasoned scribes and new authors; the anthology provides readers with the perfect opportunity to explore offerings from their favorite storytellers as well as find a new favorite or two. And, a unique perspective on the stories we enjoyed—or were forced down our throats at the hands of a sadistic English teacher or two—in our youth. Containing M/M and F/F as well as Trans stories from authors Adrik Kemp, Alex Cohen, B.

A.

Tortuga, Corrine A. Silver, Darren Endymion, Drea Silvertooth, John Amory, Lazuli Jones, Logan Zachary, Lynn Townsend, Madeline Moore, Moxie Marcus, Natasja Helleenthal, Rhidian Brenig Jones, R.R. Jones, Veronica Sloane, and Yolande Kleinn, Mythologically Torqued, volume 2 is sure to have something for every

penchant.
